Bugs and frost have played havoc with the tobacco plants throughout the county, and in many instances farmers are plowing up the beds and replanting.

Some farmers claim that the biggest damage has resulted from small insects killing the tender plants. The cold, dry weather is responsible for the in-jury from the insects, the planters say.

Other farmers are of the opinion that
the killing frosts have done the most
damage to the plants.
While the opinion is general among

In celebration of our first anniversary we're offering some powerfully big inducements to the trade for a few days. Some of the prices are named in this advertisement and we want you to take notice of them.

Our Washington correspondent writes:
"William Jennings Bryan is the choice of the South for the next President."
says Congressman Oille James, of Kentucky, who has been in the city for a couple of days this week. "The people of the South, Democrats and Republicans, alike, want President Roosevelt for a third term," is the word received here from Newell Sanders, Chairman of the Tennessee Republican State Executive committee, who telegraphed a local newspaper declaring that the appeal made by John Temple Graves to Bryan, that he withdraw in favor of the President, was proof of his statement. From the view-point of the national capital there are only two condidates in the field, Roosevelt and Bryan. If Southern Republicans and Democrats could control the conventions of the two parties in 1908 it is probable that these men would again struggle for the right to sule the nation.

MONT ROSE.

MONT ROSE is a beautiful chestnut sorrel stallion, 15 3-4 hands high, full made, fine style and perfect action. Absolutely the purest gaited, biggest gaited and straightest gaited combined horse in this part of Kentucky. He is a most elegant and perfect breeder. His products are of fine size and great action, what it takes to make an all round horse, and for color, form and finish are hard to equal. After a careful study of our county and its needs we present to you in our opinion the best combined saddle and harness stallion that this country affords. We have watched with great interest the development of Mont Rose's colts for the past four years and they have, to our satisfaction, proven wonders. They are show horses, business horses and farm horses, so you will make no mistake to breed your mares to this horse.

MONT Rose was sired by Darling Denmark; he by Happy Cross. First dam, Fannie C., by Cromwell. Second dam by old Cabell's Lexington.

MONT ROSE will make this season at the farm of R. G. Robertson, Glendeane, Ky., for \$15 to insure a living colt. All possible care will be taken to prevent accidents or escapes, but not responsible should any occur.

At the Breckenridge Fair, at Hardinsburg, 1908, we will give a premium of \$25 to the best one of Nont Rose's colts; \$15 for the second and \$10 for the third, and will give \$100 for the first premium colt. All colts to be broken and shown by halter. We solicit your patronage.

of her most delightful stories of Japan—
